

HASS Rubric: Intake-to-Placement

Can pets leave the organization the same day they have a confirmed pathway?

Beginner

Not applicable due to resources and/or limitations required to accomplish this item.

Intermediate

It is standard practice for your organization to make it possible for all healthy, vaccinated, and microchipped pets to be placed and leave the facility **the same day that they arrive** in care. Placement may include adoption, foster, or partner transfer.

Advanced

Not applicable.
