

HASS Rubric: Intake-to-Placement

Does the organization have a foster program?

Beginner

The organization has an established foster program. The program focuses on the “easy” populations in care. This may include eligible puppies, kittens, and adults with no major medical or behavior considerations.

Intermediate

The organization has an established foster program. The program is available for eligible puppies, kittens, adults without major behavioral considerations, and pets in need of medical care in a home environment. The organization has also established a process for foster sleepovers or day trips with eligible pets.

Advanced

The organization has an established foster program. The program is available for **all pets in care** including neonatal, medical, behavior, and other special pet circumstances. The organization has also established a process for foster sleepovers or day trips with eligible pets.
