HASS Rubric: Pet Support Services

Does the organization have a visible pets.findhelp custom widget?

Terminology

1. **Widget**: A software application designed to provide a specific piece of information or specific function (such as search for pet support services) on demand.

Beginner

A request has been made to HASS to receive a pets.findhelp search widget with the intention to add the widget to the organization's website. If you are a government agency without permission or access to directly update the organization's website and have made an official request to the appropriate party to request this potential change, automatically select "Beginner".

Intermediate

The organization has received a pets.findhelp search widget code and has included the search widget on the organization's website. The widget is not on the main website landing page.

Advanced

The organization has received a pets.findhelp search widget code and has included the search widget on the organization's main website landing page.
