

HASS Rubric: Supported Self-Rehoming

What post-adoption support is provided for rehomed pets?

Beginner

The organization provides post-adoption resources to adopters of self-rehomed pets. This support **may be** providing tips or best practices for integrating a new pet into the household, basic medical care recommendations, or instructions on how to update or register a new microchip.

Intermediate

Not applicable.

Advanced

The organization provides post-adoption resources to adopters of self-rehomed pets and provides direct support through staff or volunteers. This support **may be** providing tips or best practices for integrating a new pet into the household, behavior or training guidance, microchip assistance, or pet care needs.
